

Connecting business to employee

Who We Are

B2E Solutions is a Wisconsin-based provider of human capital management (HCM) solutions. One part technology. One part service. We provide the industry's leading technology from UKG — plus a level of personalized service that you just don't see these days.

Did you know?

B2E stands for **business-to-employee**. Our technology + service helps businesses better connect with their employees to foster healthy, trusting and engaged relationships.

What We Offer

We provide the best of the best in technology. UKG Ready is a single, cloud-based HCM technology with a full-suite of solutions that work together to automate the flow of information between people and products to improve efficiency, reduce risk and provide you with a single source of truth for all of your employee records.

Payroll

Simplify the entire payroll process to ease administrative burden, minimize compliance risk and deliver the perfect paycheck every time.

Time & Labor

Capture employee time accurately, streamline approvals and get the data and scheduling intelligence needed to control labor costs.

Human Resources

Automate core HR actions, eliminate redundant data entry, improve record accuracy and keep your people at the center of your efforts.

Talent Management

Take your business where it needs to go by attracting, hiring and developing your absolute best and brightest workforce.

Add-Ons & Integrations

Extend your capabilities by connecting the third-party services you love with your UKG Ready product suite.

"UKG Ready is so easy to use and very versatile to fit different customer needs."

— CFO, Inc.
