

Your Strategic Partner in AI Adoption

At SmartOne.ai, we specialize in guiding organizations through the complexities of integrating AI into their operations. From conceptualization to execution, our strategic advisory services ensure your AI initiatives are successful and cost-effective.

Why SmartOne?

SmartOne's **Strategic AI Advisory Services** are designed to empower your AI and innovation initiatives through comprehensive support in technical development, strategic alignment, and operational excellence.

Our team, led by a seasoned CTO with extensive experience in AI/ML, computer vision, robotics, and other emerging technologies, collaborates closely with your organization to ensure the successful implementation and scaling of your AI projects.

Our Methodology

Strategic Alignment

Bring coherence among people, processes, and product for exceptional outcomes.

Innovation Empowerment

Nurture a culture of innovation through expert mentorship, uplifting team capabilities.

Growth Acceleration

Streamline tech strategy for expedited scaling and growth.

AI Funding Support

Canadian based companies can also leverage our expertise in accessing government grants and programs to offset some of your AI project costs.

Our Strategic AI Advisory Services

Gain expert insights and strategic direction for your AI projects to ensure alignment with business goals and maximize ROI.

AI Solutions Architecting

Design and implement robust AI solutions tailored to your specific business needs, ensuring scalability and efficiency.

Fractional CTO Services

For startups and corporate innovation projects, we provide experienced leadership to drive your tech strategy and execution.

AI Data Pipeline Support

From data curation to annotation and validation, our human-in-the-loop services ensure high-quality data processing, supported by our technology-agnostic platform.

AI Software Development Services

Develop cutting-edge AI software solutions with our team of experienced AI developers, ensuring high performance and reliability.

Accelerating Your AI Projects

With SmartOne.ai, your projects contribute to a broader mission of sustainable, responsible AI development that uplifts communities and sets new standards for the industry.

Our Ethos

At SmartOne, we believe business can drive profound social change. We place environmental and social considerations at the core of our operations, striving to create a positive ripple effect wherever we set foot. Whether it's reducing carbon footprints or championing local initiatives, our goal is clear: to be a beacon of sustainable and socially responsible business practices.

Together, let's shape a future where AI isn't just smart; it's wise, ethical, and a force for positive change. Welcome to SmartOne.ai - where intelligence meets integrity.

"SmartOne has been enormously helpful to us at Airbotics. Their unmatched expertise in robotics and AI, coupled with a deep network in the field and years of startup experience, has been invaluable. They are always our biggest supporters, bringing energy and enthusiasm to every challenge we face."

- Andrew Murtagh, CEO & Co-Founder, Airbotics

"Working with SmartOne has been game-changing for our company's technology development. Their expertise and strategic thinking have been instrumental in setting up our automation strategy. SmartOne has a unique ability to bridge the gap between technology and business goals."

- Tristan Zeman, President & Co-Founder, Interius Farms

"We've collaborated with SmartOne over the past year, and our experience has been exceptional. Their deep technical expertise in AI, robotics, and software engineering has added tremendous value to our joint projects."

- Martin Coulombe, President, Osedea
