OneVuex UNIFIED SYSTEMS | IBM Silver Partner

Unifying trusted AI and Cloud Technologies to Drive Innovation in the Legal Industry

The legal industry struggles with digital transformation despite the need to meet rising client expectations, support remote work, and counter cyberthreats.

- **Silos and data dispersal** impede access to information, stifle collaboration, and create operational inefficiencies
- **Outdated technologies and methodologies** fail to keep pace with business needs and client and market demands
- **Manual, repetitive tasks** lead to burnout, limit productivity, and impede innovation
- **Sophisticated cyberthreats exploit gaps in siloed security which** security professionals often lack the experience or tools to defend

Legal Technology Trends

$10 Billion is expected to be **spent on legal tech software in 2024**

94% of legal professionals believe **technology can improve their productivity**

55% of legal professionals use **mobile devices to access work-related information**

67% of legal professionals say that **cybersecurity is their top technology challenge**

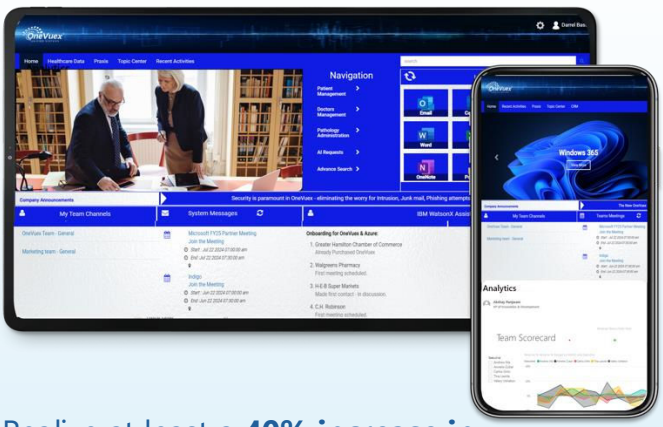
Introducing OneVue*x* Unified Systems

OneVue*x* Unified Systems intelligently integrates **IBM**, **Microsoft**, and other technologies, unifying data across applications, databases, and cloud platforms, displaying related data results **in a single interface**.



Realize at least a **40% increase in productivity** and **40% decrease in IT spend**.

OneVue*x* ensures seamless data interoperability, eradicating information silos and consolidating all related information from various systems designed for the legal industry **into a single record.**

OneVue*x* with IBM Watsonx offers an AI Assistant that automates processes and workflows to simplify tasks, derive meaningful insights, generate reports, and enhance productivity, innovation, and legal services.

AI-powered tools enhance teamwork and client interactions on both desktop or mobile devices.

Customized analytics and dashboards seamlessly integrate various applications. The **data is live** and configurable for predictive analytics. OneVue*x* also facilitates **bidirectional information flow with CRM tools**.

OneVue*x* integrates IBM, Microsoft, and other leading security into a comprehensive solution for **detection, response, and remediation** across all connected systems, protecting sensitive information.

OneVue*x* – Superior Experiences. Greater Insights. Better Results.
