

Grow with Google ILT

PulseLearning partnered with Google to design and deliver the Grow with Google Learning Center at the company's New York City offices, providing expert curriculum development and experienced educators. The initiative aimed to empower learners with practical digital skills through dynamic, instructor-led experiences that encouraged active participation and skill growth.

The team led all aspects of delivery, including classroom instruction, coaching, event facilitation, and content creation. More than 25 free classes were developed and delivered daily, with 6 to 10 sessions running each day. Tens of thousands of learners took part, with attendance and engagement levels far exceeding Google's original expectations.

PulseLearning is an award-winning provider of enterprise learning and transformation solutions, founded in 1999 and headquartered in Ireland. We partner with global organizations across the U.S., UK, Canada, Australia, and EMEA to deliver customized learning programs that drive measurable business outcomes.
